Summary

Full-Stack Developer and Founder skilled in **React.js, Node.js, TypeScript, Angular, and Next.js**. Engineered the AlertUp safety platform using **Graph Theory** for automated evacuation routes and real-time APIs. Proven ability to build scalable e-commerce engines and high-traffic media platforms. HackerRank Verified in JavaScript (Intermediate), React (Basic), and Frontend Development.

Technical Skills

Frontend: React.js, Angular, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
Backend: C, C++, Node.js, Express.js, RESTful APIs, GraphQL, JWT Authentication
Databases/DevOps: MongoDB, Supabase, PostgreSQL, Git, Vercel, CI/CD
Core: System Design, Algorithmic Optimization, UI/UX, Agile Methodology

Experience

Founder & Lead Full-Stack Developer — Dec 2025 – Present
AlertUp (Emergency Safety Platform) — *Tbilisi, Georgia*
– Engineered a scalable MERN-stack platform using **Graph Theory** for automated evacuation routes.
– Developed low-latency Node.js REST APIs for real-time QR-code indoor navigation and data streaming.
– Implemented JWT authentication and MongoDB clustering for secure, high-traffic handling and scalability.

Projects

Iluzia E-Commerce | *Live Link* | *Angular, Node.js, MongoDB* — Oct 2025
– Built a full CRUD e-commerce engine with dynamic product workflows and optimized Express.js APIs.
– Integrated MongoDB indexing and caching to improve data retrieval speeds by 40%.

Sandro Menabde Media Platform | *Live Link* | *Angular, Node.js* — Dec 2025
– Developed a high-traffic media site for 5K+ DAU using REST APIs, reducing asset load times by 30%.

DevHealth Dashboard | *React.js, Supabase, PostgreSQL* — Oct 2025
– Awarded **Best UI/UX (Top 20 HackTbilisi)**; built a real-time health tracker with secure Auth for developers.

Noter App | *React.js, Node.js, MongoDB* — Sep 2025
– Created a JWT-secured note system with optimized React state management for a lag-free user experience.

Certifications

HackerRank Verified Professional Certifications
– **Frontend Developer (React)**: Expertise in React Hooks, Component architecture, and Responsive UI.
– **JavaScript (Intermediate)**: Mastery of Async Patterns, ES6+ logic, and Closures.
– **React (Basic)**: Validated foundation in Lifecycle, Hooks, and State Management.

Education

12th Government School — Tbilisi, Georgia
High School Diploma (Expected May 2027) — *Sep 2016 – Present*
