

SUMMARY

Full Stack Engineer and UI/UX Designer based in Tbilisi, Georgia, with a proven track record of building and shipping production-ready web applications independently and as part of collaborative teams. Founded a safety-tech startup (AlertUp) from concept to investor pitch in under 6 weeks, reached the top 20 at Hacktoberfest Tbilisi 2025 (140 teams), and currently contributing to multiple live products. Skilled across the modern JavaScript ecosystem, cloud infrastructure, and AI/LLM integration. Seeking an internship or junior/mid-level Full Stack role.

TECHNICAL SKILLS

Languages	: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, SQL, C
Frontend	: React.js, Next.js, Angular, Tailwind CSS, SCSS, Responsive Design
Backend	: Node.js, Express.js, Socket.io, REST APIs, JWT, Auth Systems
Databases	: PostgreSQL, MongoDB, Mongoose, Redis, Supabase
AI / ML	: Gemini API, OpenAI API, LLM Integration, Prompt Engineering, AI Engineering
Cloud & DevOps	: AWS, Vercel, Git, GitHub, CI/CD Pipelines
Testing & Tools	: Jest, Postman, Figma, System Design, Data Structures & Algorithms

EXPERIENCE

Full Stack Engineer & UI/UX Designer <i>Garage Records</i> - Architecting and developing the backend for the official Garage Records label website (garagerec.vercel.app), including API design, database modelling, and server deployment. - Created comprehensive UI/UX designs and brand-consistent mockups in Figma for the label’s public-facing platform. - Collaborating within a creative collective to define product direction, feature scope, and technical architecture.	April 2026 – Present <i>Tbilisi, Georgia</i>
Full Stack Engineer & UI/UX Designer <i>Subsequence 2.0</i> - Leading the UI/UX design and frontend architecture for an upcoming digital platform from scratch. - Designing the full system architecture; moving into server-side implementation upon design phase completion.	April 2026 – Present <i>Tbilisi, Georgia</i>
Founder & Full Stack Engineer <i>AlertUp — Emergency Evacuation Startup</i> - Built a QR-code-based emergency evacuation SaaS from zero to production in under 6 weeks: building owners upload evacuation maps, generate unique QR codes per location, and users who scan during an alarm receive real-time, location-aware routing to the nearest exit. - Engineered the full stack: authentication & email verification, building/map management portal, dynamic QR generation, and server-side proximity routing logic. - Pitched AlertUp to investor Pavle Mgeladze at the re:invent accelerator program in Tbilisi.	Dec 2025 – Jan 2026 <i>alertup.world</i>

PROJECTS

Algoora — Competitive Coding Platform <i>React, Node.js, Express.js, MongoDB, Socket.io, Redis, Gemini AI</i> algoora.vercel.app - Built a LeetCode/Codewars-alternative from scratch featuring in-browser code compilation, algorithmic problem sets, a global ranked leaderboard, live competitions, and a full team system. - Integrated Gemini AI for contextual hints, detailed problem explanations, and adaptive guidance; built a premium subscription model with PayPal/Paddle payment processing. - Used Redis for performance caching and Socket.io for real-time tournament and competition features.	
DevHealth — AI Developer Wellness Tool <i>React, TypeScript, Supabase, PostgreSQL, Tailwind, AI</i> devhealth.online Top 20 finalist out of 140 teams at Hacktoberfest Tbilisi 2025 — presented live to a jury panel at Free University of Tbilisi (co-built with Dachi Sebiskveradze). - Co-developed an AI-powered developer burnout prevention platform and companion VS Code extension: Pomodoro timer, sleep/workout tracking, distraction blocking, and focus analytics.	
Iluzia (Illusion) — Artist Poster E-Commerce <i>Angular, TypeScript, Node.js, Express.js, Mongoose, Tailwind</i> iluzia.vercel.app Independently designed and built a full-stack e-commerce store (artist & movie posters, Figma-designed artwork, end-to-end checkout) at age 13–14, demonstrating early command of full-stack development.	

EDUCATION

Quantum — Computer Science School <i>Software Engineering Track</i> — Founded by Zaza Omiadze Intensive curriculum covering data structures, algorithms, system design, and software engineering principles.	2024 – Present <i>Tbilisi, Georgia</i>
12th Public School of Tbilisi <i>Secondary Education Diploma</i>	Graduated 2025 <i>Tbilisi, Georgia</i>

CERTIFICATIONS & ACHIEVEMENTS

HackerRank Certified: Frontend Developer (React) | JavaScript Intermediate | React Fundamentals

Hacktoberfest Tbilisi 2025: Top 20 Finalist from 140 teams — Live presentation at Free University of Tbilisi

re:invent Accelerator: Selected to pitch AlertUp (safety-tech startup) to investor Pavle Mgeladze

Self-Taught Milestone: Shipped first full-stack production apps (Angular + Node.js + MongoDB) at age 13–14
